<b>Focus</b>	Reading Closely and Writing to Learn	Reading and Research	Working with Evidence	Understanding Perspectives		
<b>Module Title</b>	Journeys and Survival	Screen Time and the Developing Brain	Working Conditions	Slavery: The People Could Fly		
<b>Description</b>	<p>Students explore the experiences of people of Southern Sudan during and after the Second Sudanese Civil War. They build proficiency in using textual evidence to support ideas in their writing, both in shorter responses and in an extended essay. They read <i>A Long Walk to Water</i>, analyzing the points of view of the central characters, Salva and Nya. Students focus on one key theme: how individuals survive in challenging environments. The novel is paired with complex informational texts on Sudan. Students then combine research about Sudan with quotes from the novel and craft a research-based two-voice poem.</p>	<p>Students explore adolescent brain development and the effects of entertainment screen time on the brain. Students read informational texts to build background knowledge about adolescent brain development in general. Then they begin to focus on the issue of screen time and how it may affect teenagers. Students evaluate the soundness of reasoning and the sufficiency and relevancy of evidence in argument texts and media. They dive deeper into first the potential benefits and then the potential risks of screen time by participating in a robust research project. Students finish the module by writing a position paper, and creating a visual representation of their paper.</p>	<p>Students explore the issue of working conditions, historical and modern-day. They analyze how people, settings, and events interact in literary and informational texts. Students first focus on <i>Lyddie</i> (about a girl who works in the Lowell mills); they write an argument essay about Lyddie's choices around joining a protest over working conditions. Then they read a speech by César Chávez (tracing how the sections of the text combine to build central claims) as they consider the role that workers, the government, and consumers play in improving working conditions. Finally, a short research project explores how businesses can affect working conditions. As a final performance task, students create a guide to working conditions in the garment industry.</p>	<p>This module focuses on the autobiography of Frederick Douglass, with specific attention to understanding how he uses language in powerful ways and how he tells his story in order to serve his purpose of working to abolish slavery. Students begin by building background knowledge about Douglass and his historical context. They then read closely key excerpts from his <i>Narrative</i>, focusing on his message as well as the author's craft. Finally, they select one episode from the <i>Narrative</i> and rewrite it as a children's story, using <i>Frederick Douglass: The Last Day of Slavery</i> as a mentor text.</p>

### Common Core ELA Standards Formally Assessed, by Module

- In the curriculum map below, any specific CCSS with a check mark indicates formally assessed.
- Some standards are formally assessed in multiple modules.
- “B” modules will assess all the same standards as “A” modules but may address additional standards.
- Because of the integrated nature of the standards, even standards that are not formally assessed are often embedded in instruction throughout every module (e.g., RI/RL.1).
- Some standards are not applicable in an on-demand assessment context (e.g., R.10 or W.10). In the curriculum map below, these standards are noted as “integrated throughout.”
- Some standards (e.g., W.2) have a main or “parent” standard and then subcomponents (e.g., W.2a). Often, students’ mastery of the entirety of this standard is scaffolded across multiple modules. Therefore, in the curriculum map below, the “parent” standard is checked only if all components of that standard are formally assessed within that particular module. Otherwise, just the specific components are checked.
